Rain, Rain Go Away!!

www.kelray.co.uk

Has the miserable May weather put a dampener on your month?

From EWI systems, excavation works and home extensions we have powered on through against the rainy weather...

In construction we know that the weather can be a prominent issue when carrying out projects such as external groundworks. We have recently completed excavation works to areas of contaminated soil on a local forklift factory site, however we had to delay works due to bad weather conditions. Luckily, the sun made an appearance shortly after and works were able to resume.

We have also been working on a rear first floor house extension to create an extra bedroom and bathroom— we are excited to see the end result.

What better way to end the month than with an impressive testimonial from a client?

We recently completed a Church Hall Restoration project in our local town and have proudly received a glowing testimonial. Take a look at our [‘Testimonials’](#) page for the full write-up. Have a great month and keep your fingers crossed for a sunny June!

Team Kelray!

How important is Health & Safety in your working environment?

At Kelray we understand the importance of maintaining Health & Safety standards throughout our organisation. We are committed to a management system that demonstrates a pro-active approach through continuous development and improvement of our Health & Safety performance.

Company News...

Kelray are members of the CIOB

Kelray are now members of the CIOB (Chartered Institute of Building) are a professional body for construction management and leadership.

Micky the Bricky...

It's always nice to see our boys getting into the team spirit. Our bricklayer, Mike came into work on his birthday with his own personalised Kelray shirt. It made us giggle!
